## **New Office Engineer at Duran & Venables**

(Sacramento, Calif.) -- Carrie Cerino, a professional in the construction industry, has joined Duran & Venables Inc., a leading provider of grading and paving construction services, as office engineer. Duran & Venables hired Cerino in conjunction with its expansion into the Sacramento region.

In her new position, Cerino helps with the preparation and delivery of construction estimates and assists with the daily operations in the Duran & Venables Sacramento branch office. In addition to these responsibilities, Cerino handles a multitude of projects, programs and outreach to various customers.

"Carrie brings a wealth of knowledge and experience to Duran & Venables," says Sacramento Branch Manager Scott Creason. "For more than 25 years, Duran & Venables has been serving private and public sector industries. As we forge ahead, Carrie will play an important role in our expansion plan and help us reach our company goals over the next decade and beyond."

Born and raised in Cleveland, Ohio, Cerino studied civil engineering at the University of Dayton. She moved to California several years ago and worked as an office field engineer with Granite Construction prior to joining Duran & Venables. In her leisure time, Cerino enjoys golfing, horseback riding and spending time with her fiancé Keith Rowe.

"I am very pleased and proud to be a part of the Duran & Venables team," says Cerino. "I look forward to working with this wonderful group of people and serving our customers in Sacramento and the surrounding communities."

### **About Duran & Venables, Inc.**

Duran & Venables is a leading provider of grading and paving construction services in Northern California. For more than 25 years, Duran & Venables has been providing quality service and products to its customers, while offering an excellent working environment for its employees. Winning the California Prospector Award for Excellence and the Engineering and Utilities Contractors Association's Excellence in Safety Award two years in a row reflects its long-term commitment and dedication to its customers, employees and community.
